

Office Relocation Notice

Dear Customers, Partners, and Friends,

As oToBrite celebrates its 12th anniversary, we are pleased to announce the relocation of our headquarters and the separation of our factory and office operations. This strategic move is part of our long-term business development plan and also a response to the clustering effect of the Hsinchu Science Park's software industry. It marks a new chapter for oToBrite, reinforcing our commitment to core ADAS technologies while actively expanding into new and innovative fields such as unmanned vehicles and autonomous robots.

Our new headquarters offers a more inspiring work environment, featuring human-centered recreational spaces and modern spatial design to unlock the creative potential of our R&D teams. A newly established showroom also allows for enhanced client interaction, technical demonstrations, and stronger brand presence.

Meanwhile, our upgraded factory is equipped with state-of-the-art production facilities and optimized workflows, significantly improving efficiency, flexibility, and operational excellence. Through these transitions, we aim to foster continued innovation and deliver even greater value to our customers and partners.

Let us embrace change together, strive for innovation, and step boldly into a new future.

oToBrite Headquarters
